(a) Backward response
Backward-collected efficiency
Backward spectral integral
Outer diameter [μm]
(b) Forward and total scattering
Forward integral
Total integral
Spectral integral
Outer diameter [μm]
(c) Directionality
Asymmetry parameter g
Visible mean
At 470 nm
Outer diameter [μm]
(d) Size-dependent spectra
5 μm
10 μm
20 μm
40 μm
Backward-collected efficiency
Wavelength [nm]
